Because of unavoidable delays in the printing and distribution of Consumer Declaration forms (Form SFA-360) SFAW Regulation No. 26 is amended as follows:

The note to paragraph (a) of § 602.653 (10 FR. 3519) is amended to read as follows:

Note: If a retail dealer has not received from the government by April 1, 1945 a supply of the prescribed Consumer Declaration forms, or if a retail dealer who has been authorized to reproduce Consumer Declaration forms or have them reproduced for him has not, despite due diligence, received a supply of them by April 1, 1945, such retail dealer may deliver solid fuel to domestic consumers notwithstanding the provisions of paragraph (a) of this section. Such a retail dealer shall, immediately after receiving a supply of the prescribed forms, and in no event later than May 1, 1945, obtain Consumer Declarations from such consumers, and he shall record on the backs of the Consumer Declarations the deliveries made to such consumers.

This amendment shall become effective immediately.

PART 602—GENERAL ORDERS AND DIRECTIVES

SIGNING OF CONSUMER DECLARATIONS

It has come to my attention that many unsigned Consumer Declarations are being filed with retail dealers.

A consumer is prohibited from receiving any solid fuel under SFAW Regulation No. 26 unless his Consumer Declaration is signed. Accordingly, it is essential that the consumer not only fill out the Consumer Declaration but also sign it.

Issued this 10th day of April 1945.

PART 1010—Suspension Orders [Suspension Order S-758]

TRUE-TAGG PAINT CO.

True-Tagg Paint Company is a corporation engaged in the manufacture of paints, lacquers, thinners and other paint products in Memphis, Tenn. During the first, second and third quarters of 1944 it accepted delivery of a total of 1971.12 pounds of Class A pigments in excess of its quota of Class A pigments which it was permited to use during said periods under the provisions of Allocation Order M-370 and in violation of that order. During the period from October 1, 1943 to August 30, 1944 the Company used new fibre shipping containers with a container board content of 14,600 feet in excess of its footage quota but with no excess of poundage, in violation of Limitation Order L-317. The responsible officers of the Company were grossly negligent in failing to familiarize themselves with these orders and regulations of the War Production Board affecting the business of the Company.

These violations have hampered and impeded the war effort of the United States by diverting critical materials to uses unauthorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.758 Suspension Order No. S-758. (a) Unless otherwise authorized in writing by the War Production Board True-Tagg Paint Company, during each the second, third and fourth calendar quarters of 1945, shall limit its total acceptance and use of Class A pigments as defined in paragraph (a) of Allocation Order M-370 by 657 pounds under the quota it would otherwise be entitled to use for each of said quarters pursuant to the provisions of War Production Board Allocation Order M-370, as amended from time to time.

(b) True-Tagg Paint Company shall reduce its acceptance and use of container board content of new fibre shipping containers during each of the second and third calendar quarters of 1945 by 7,300 square feet under the quota it would otherwise be entitled to accept and use for that period under the provisions of Limitation Order L-317, as amended from time to time, unless otherwise authorized in writing by the War Production Board.

(c) The restrictions and prohibitions contained herein shall apply to True-Tagg Paint Company, its successors and assigns or persons acting on its behalf. Pohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) Nothing contained in this order shall be deemed to relieve True-Tagg

This order also contains provisions relating to production of cotton yarn, including provisions which have been transferred from Order L-99 to this order. Furthermore, it contains provisions relating to distribution of cotton yarn which are in addition to those contained in Order M-317.

- (b) Specific directions to producers and converters. - (c) Operation of spinning machinery.

 (1) No person, regardless of the presentation of rated orders, shall operate spinning machinery (i. e., roving, ring, mule or converted twister spindles) contrary to the provisions in the Sale Yarn Production Schedule of this supplementary order.
- (2) Spinning machinery acquired after July 3, 1943. No person shall operate any spinning machinery acquired. (the term includes leasing or renting) by him after July 3, 1943, except for the production of yarn required to be produced by paragraph (d) of this supplementary order or as specifically authorized in writing by the War Production Board. For such authorizations, application may be made by letter to the War Production Board stating all facts which the applicant deems important and pertinent to his particular case. In all instances he shall state the type of yarn he wishes to produce and in instances where he has acquired used spinning machinery he shall state the name of the person who formerly owned or controlled the equipment and the yarn produced by such former owner. Authorizations will be granted to maintain

a maximum practical production of cotton yarn.

(d) Sale varn production directions-(1) Yarn described in sale yarn production schedule. Each producer of yarn must in each calendar quarter produce and deliver at least the same poundage of cotton yarn in the description and counts listed for each of the numbered groups in the "May produce only" column of the Sale Yarn Production Schedule of this supplementary order as he delivered in these groups in that calendar quarter of 1943 in which he delivered the largest percentage of his yarn production. This calendar quarter is called "base period." The required poundage of each description and count of yarn must be produced for sale at the same price (or any increase subsequently granted by the OPA for the same description and count) at which the required poundage in the particular description and count was produced in the base period.

(2) Duck yarns: Fach producer must in each calendar week produce and deliver duck yarns of at least the same poundage as he delivered in the week in 1944 in which he delivered the largest poundage of duck yarns. Each producer shall be deemed in compliance with this paragraph (d) (2) as long as he delivers each week at least the same poundage of duck yarns as he delivered in the week in 1944 in which he delivered the largest poundage of duck yarns.

Producers who have facilities which can produce additional quantities of duck yarns may receive special directions from the War Production Board to deliver specific amounts to designated weavers.

(3) Twine layers and ring twisters operations. Each Haskell-Dawes, Brownell or ring twister and each twine layer in the possession or under the control of any producer shall be operated at least as many hours per week as any twister or any twine layer is operated at the same plant.

(e) Restrictions on distribution and use of cotton yarn and roving—(1) Roving. No spinner shall use or dispose of roving except for spinning or on rated orders, unless specifically authorized in writing by the War Production Board. An authorization to use roving for other purposes may be granted if the War Production Board finds that the roving produced by spinners, who do not have spinning spindles, is not needed to fill rated orders, or in cases where spinners show that their spinning spindles are operating at maximum capacity. secure such authorizations, an application must be made by letter to the War Production Board, stating the quantity of roving which the applicant wishes to use or dispose of for other than spinning or the filling of rated orders; and the hours per week which each spinning machine is being operated.

It contains not less than 33% of milk fat and not more than 55% of moisture as determined, respectively, by the methods prescribed under "Fat—Official" on page 302 and under "Moisture—Official" on page 301 of "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fifth Edition, 1940.

(11) "Neufchatel cheese" means neufchatel cheese as defined in "cream cheese, neufchatel cheese, cottage cheese, and creamed cottage cheese; Definitions and Standards of Identity" promulgated by the Food and Drug Administration and published in the Federal Register of December 23, 1942. WAR PRODUCTION BOARD.

[C-297]

D. H. AND G. H. BELL CONSENT ORDER

Ernest F Bell, Donald H. Bell, and Gordon H. Bell, partners, doing business as D. H. and G. H. Bell in Beverly, Massachusetts, engaged in the manufacture of shoes, are charged by the War Production Board with putting into process leather for the manufacture of 55,705 pairs of youths' and boys' hi-cut boots between September, 1943 and October 17, 1944 which is a type of footwear not permitted to be manufactured, sold and delivered under War Production Board Conservation Order M-217. The manufacture of said hi-cut boots consumed approximately 41,778 square feet of leather in excess of what would have

been required by manufacture of a like number of permitted types of youths' and boys' footwear. Such excess use would be approximately compensated for by a reduction in production by said Ernest F. Bell, Donald H. Bell, and Gordon H. Bell, doing business as D. H. and G. H. Bell of 16,710 pairs of youths' and boys' shoes during the current combined quota period. Said Ernest F. Bell, Donald H. Bell, and Gordon H. Bell, doing business as D. H. and G. H. Bell admit the violation but deny that it was wilful and do not care to contest the issue of wilfulness and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Ernest F. Bell, Donald H. Bell, and Gordon H. Bell, doing business as D. H. and G. H. Bell, the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, It is hereby ordered, That:

- (a) Ernest F. Bell, Donald H. Bell, and Gordon H. Bell, shall reduce their combined production of men's work shoes and youths' and boys' shoes during the period beginning March 1, 1945 and ending August 31, 1945 to an amount which is 16,710 pairs less than the amount permitted by said Conservation Order M-217.
- (b) Nothing contained in this order shall be deemed to relieve Ernest F. Bell. Donald H. Bell, and Gordon H. Bell, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, ex-

cept insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Ernest F. Bell, Donald H. Bell, and Gordon H. Bell, doing business as D. H. and G. H. Bell, or under any other name, their successors or assigns, or persons acting on their behalf. Prohibitions against the taking of any action include taking indirectly as well as directly of any such action.

(d) This order shall take effect on the date of issuance but shall be deemed to affect and govern the quota for the quota period beginning March 1, 1945 and ending August 31, 1945.

Issued this 11th day of April 1945.

Kalman Fikter and Paul Krenzien admit the violation as charged, do not desire to

contest the charge, and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Kalman Fikter and Paul Krenzien, the Regional Compliance Chief, and the Regional Attorney, and upon the approval of the Compliance Commissioner, It is hereby ordered, That:
